

Swelling. Joint pain. Stiffness.

RA Hurts.

Is the SELECT clinical research study right for you?

A local clinical study testing an investigational medication for rheumatoid arthritis (RA) is enrolling now.

You may qualify for the SELECT study if you:

- Are at least 18 years old
- Have Rheumatoid Arthritis
- Do NOT have another inflammatory joint disease such as gout

Qualified volunteers may receive:

- No-cost investigational study medication for RA
- No-cost study-related care from a study doctor
- Compensation up to \$700 may be available for time and travel

All study-related care will be at no cost you, and you can continue seeing your primary care doctor during the study. Health insurance and doctor referrals are not required to participate.

The SELECT study is enrolling today.
